## NATURAL DEODORIZING SHOE POWDER RECIPE

© [Rebecca's Soap Delicatessen](#)

### INGREDIENTS:

2 oz. baking soda  
2.5 oz. [arrowroot powder](#)  
1/2 teaspoon [lavender flower powder](#)  
1/4 teaspoon [lemon peel powder](#)  
30 drops [rosemary essential oil](#)  
20 drops [tea tree oil](#)  
12 drops [clove essential oil](#)  
12 drops [lemongrass essential oil](#)

### INSTRUCTIONS:

Using a [digital kitchen scale](#), weigh out the baking soda and arrowroot powder into a large glass bowl. Then measure out the lavender flower powder and lemon peel powder and add to the bowl. Mix all dry ingredients together with a fork.

Next, add the essential oils to the powder base, then whisk with a fork until thoroughly incorporated.

Spoon the finished powder into a [7 oz. white powder sifter bottle](#), cap, and label.

To use, simply shake some of the powder into the bottoms of your shoes overnight or just before wearing to help keep them dry and stink free!
